Sung-Tae Hong , Editor-in-Chief, *Journal of Korean Medical Science*

As all global scholarly journals do, the *Journal of Korean Medical Science* (JKMS) receives submissions over the world and selects manuscripts after critical peer review. In 2022, JKMS received 1,321 submissions, 850 (64.3%) by Korean researchers and 471 (35.7%) by overseas researchers. About 32% of them were desk rejected by triage and remaining 68% were reviewed by invited peer reviewers. Overall accept rate was 26.7%; research articles 24.3%, review articles 30.2%, and case reports 15.9% in 2022.

The JKMS invited 959 experts for peer review of the manuscripts in 2022, and some of them received multiple invitations. They were divided by number of reviews into 5 groups to appreciate their contribution as listed below.

I and all of the editorial staffs of JKMS sincerely appreciate all the reviewers as listed below for their contribution. Among the reviewers, Dr. Dae Sun Jo (Jeonbuk National University, Korea), Dr. Jaehun Jung (Gachon University, Korea), Dr. Joon Kee Lee (Chungbuk National University, Korea) were awarded as the best reviewer for JKMS in 2022.

Because peer review is critical for the quality journal and also for manuscripts, JKMS will invite more active experts over the world who can review submitted manuscripts in 2023. I expect voluntary contribution of the peer review is an academic honor in science. Thanks to the contribution, JKMS is progressing soundly and steadily as a global scholarly journal of medicine in general.

Name of reviewers for JKMS in 2022.
