

Corrigendum to “Full-Endoscopic versus Minimally Invasive Lumbar Interbody Fusion for Lumbar Degenerative Diseases : A Systematic Review and Meta-Analysis” by Son et al. (J Korean Neurosurg Soc 65 : 539-548, 2022)

<https://doi.org/10.3340/jkns.2021.0168>

This correction is being published to correct the use of the term “Endo-LIF” as an abbreviation for full-endoscopic lumbar interbody fusion due to its similarity to a trademarked term “EndoLIF®” registered by Joimax®.

Before correction

“Endo-LIF” as an abbreviation for endoscopic lumbar interbody fusion

After correction

“ELIF” as an abbreviation for endoscopic lumbar interbody fusion

The authors were unaware that the terminology was trademarked and had no intentions of using the trademarked term as our own. We would like to apologize for any inconvenience caused.
