Sung-Tae Hong , Editor-in-Chief, *Journal of Korean Medical Science*

As all global scholarly journals do, the *Journal of Korean Medical Science* (JKMS) receives submissions over the world and selects manuscripts after critical peer review. In 2021, JKMS received 1,359 submissions, 747 (55.0%) by Korean researchers and 612 (45.0%) by overseas researchers. About 38% of them were desk rejected by triage review and remaining 62% were reviewed by invited peer reviewers. Overall accept rate was 23.8% for submitted manuscripts (research articles 26.1%, review articles 33.3%, and case reports 5.7%) in 2021.

The JKMS invited 832 experts for peer review of the manuscripts in 2021, and some of them received multiple invitations. The list is divided by the number of reviews into 5 groups to appreciate the reviewers for their contribution.

I and all of the editorial staffs of JKMS sincerely appreciate all the reviewers as listed below for their contribution. Among the reviewers, Dr. Ji Hyun Baek (Sungkyunkwan University, Korea), Dr. Jaehun Jung (Gachon University, Korea), Dr. Tsvetoslav Antonov Georgiev (Medical University of Varna, Bulgaria) were awarded as the best reviewer for JKMS in 2021.

Because peer review is critical for the journal and also for manuscripts, JKMS will invite more active experts over the world who can review submitted manuscripts in 2022. I expect voluntary contribution of the review as an honor in science. Thanks to the contribution, JKMS is progressing soundly and steadily as a global scholarly journal of medicine in general.

Name of reviewers for JKMS in 2021.
