

This erratum is being published to correct the Table 1 on page 508 of the review article titled ‘Current Pathological and Laboratory Considerations in the Diagnosis of Disseminated Intravascular Coagulation’ by Cheng-Hock Toh, Yasir Alhamdi, and Simon T. Abrams in Ann Lab Med 2016;36:505-512, DOI 10.3343/alm.2016.36.505 as follows:

Before correction:

3. Calculate the score:
 - ≥ 5 compatible with overt DIC: repeat scoring daily
 - < 5 suggestive of nonovert DIC: repeat XYZ daily

After correction:

3. Calculate the score:
 - ≥ 5 compatible with overt DIC: repeat scoring daily
 - < 5 suggestive of nonovert DIC: repeat **scoring** daily
