

Supplementary Table 3. Characteristics of the excluded studies following full text review

No.	Title	Study	Journal	Main reason for exclusion
1	Surgical Results of Unruptured Intracranial Aneurysms in the Elderly : Single Center Experience in the Past Ten Years	Jung et al. (2011)	Journal of Korean Neurosurgical Society	Non available full data regarding outcome of interested, including CSDH development
2	Clinical characteristics and risk factors of chronic subdural haematoma associated with clipping of unruptured cerebral aneurysms	Inamasu et al. (2013)	Journal of Clinical Neuroscience	The control group is not presented.
3	Incidence and Risk Factors of Chronic Subdural Hematoma After Aneurysmal Clipping	Ohno et al. (2013)	World Neurosurgery	Therapeutic intervention in this article is not met to our inclusion criteria.
4	Postoperative subdural hygroma and chronic subdural hematoma after unruptured aneurysm surgery: age, sex, and aneurysm location as independent risk factors	Park et al. (2016)	Journal of neurosurgery	Therapeutic intervention in this article is not met to our inclusion criteria.
5	Predicting Factors of Chronic Subdural Hematoma Following Surgical Clipping in Unruptured and Ruptured Intracranial Aneurysm	Kwon et al. (2016)	Journal of Korean Neurosurgical Society	Therapeutic intervention in this article is not met to our inclusion criteria.
6	Postoperative Subdural Air Collection Is a Risk Factor for Chronic Subdural Hematoma after Surgical Clipping of Cerebral Aneurysms	Kawabata et al. (2018)	Neurol Med Chir (Tokyo)	Therapeutic intervention in this article is not met to our inclusion criteria.
7	Subdural Fluid Collection After the Clipping of Unruptured Intracranial Aneurysms: Its Clinical Course and Significance	Kang et al. (2018)	World Neurosurgery	Therapeutic intervention in this article is not met to our inclusion criteria.
8	Effect of arachnoid plasty using fibrin glue membrane after clipping of ruptured aneurysm on the occurrence of complications and outcome in the elderly patients	Mino et al. (2006)	Acta Neurochirurgica	Therapeutic intervention in this article is not met to our inclusion criteria.

CSDH : chronic subdural hematoma
