Supplementary Fig. S2. Diagram showing a significant difference in the haplotype ACGTCAC of SNPs rs1820453, rs7106388, rs10895257, rs1426398, rs11225138, rs1426394, and rs948737 of YAP1 between the mild (GINA 2) and moderate (GINA 3) asthma severity groups. SNP, single nucleotide polymorphism; GINA, Global Initiative for Asthma.
