Erratum: This erratum is being published to correct the printing error on page 188 of the article entitled 'Butter Tolerance in Children Allergic to Cow's Milk: A Pilot Study' by Noriyuki Yanagida, Takanori Minoura, Setsuko Kitaoka in Allergy Asthma Immunol Res. 2015 March;7(2):186-189, <http://dx.doi.org/10.4168/aaair.2015.7.2.186> as follows.

Corrections for Fig. 2 in page 188 are needed. We apologize for any inconvenience that this may have caused.

Before correction

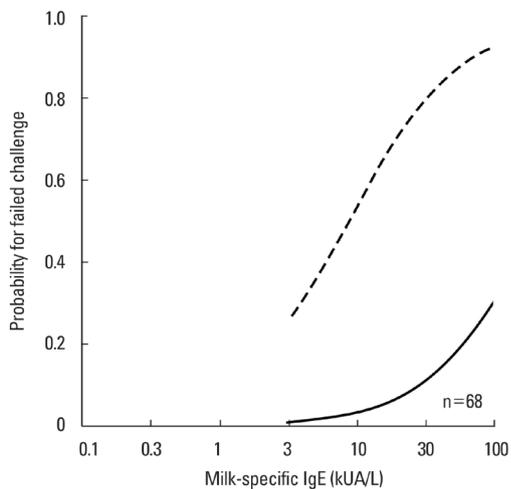

Fig. 2. Fitted predicted probability curves for the outcome of challenge at a given milk-specific IgE value. The solid curve represents the results of the butter challenge test, and the dotted curve represents the results of the heated milk challenge test.

After correction

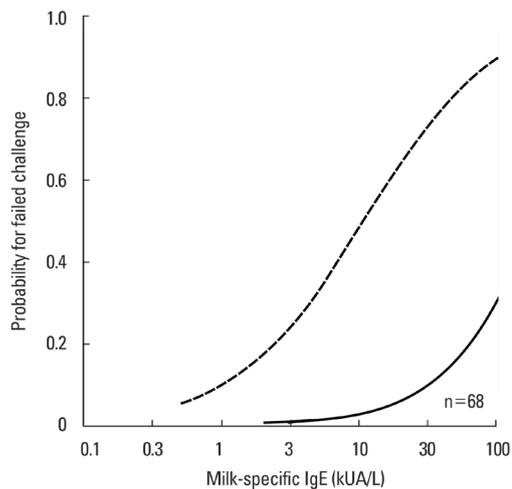

Fig. 2. Fitted predicted probability curves for the outcome of challenge at a given milk-specific IgE value. The solid curve represents the results of the butter challenge test, and the dotted curve represents the results of the heated milk challenge test.
