

Erratum: Emergence of NDM-1–producing *Pseudomonas aeruginosa* Sequence Type 773 Clone: Shift of Carbapenemase Molecular Epidemiology and Spread of 16S rRNA Methylase Genes in Korea

This erratum is being published to correct a printing error on page 2 of the article titled “Emergence of NDM-1–producing *Pseudomonas aeruginosa* Sequence Type 773 Clone: Shift of Carbapenemase Molecular Epidemiology and Spread of 16S rRNA Methylase Genes in Korea” by Yu Jeong Choi, Young Ah Kim, Kim Junglim, Seok Hoon Jeong, Jong Hee Shin, Kyeong Seob Shin, Jeong Hwan Shin, Young Ree Kim, Hyun Soo Kim, Young Uh, and Nam Hee Ryoo in Ann Lab Med 2023;43:196-199 (doi: 10.3343/alm.2023.43.2.196), as follows. In Fig. 2, the numbers of isolates in Seoul/Gyeonggi area were corrected.
