

Erratum: Correction of Nomenclature of Mutations

Jun Kyu Song, Kyung Sik Yoon, Kye Shik Shim, and Chong-Woo Bae

To the Editor:

We found two errors in our published article:

Song JK, Yoon KS, Shim KS, Bae CW. Novel Compound Heterozygous Mutations in the Vitamin D Receptor Gene in a Korean Girl with Hereditary Vitamin D Resistant Rickets. *J Korean Med Sci* 2011; 26: 1111-4.

In the abstract, case description and figure 2, the nomenclature of two mutations was misprinted because of misreading the cDNA nucleotide sequences.

The followings are the correction of them.

719C-to-T (I146T) → **c.437C > T (p.T146I)**

754C-to-T (R154C) → **c.472C > T (p.R158C)**

We have attached a corrected version of the Fig. 2.

Corrected Fig. 2
