Sung-Tae Hong , Editor-in-Chief, Journal of Korean Medical Science

As all global scholarly journals do, the *Journal of Korean Medical Science (JKMS)* receives submissions over the world and selects manuscripts after critical peer review. In 2020, *JKMS* received 1,614 submissions, 964 (59.7%) by Korean researchers and 650 (40.3%) by overseas researchers. About half of them were desk rejected by triage review and remaining half were reviewed by invited peer reviewers. Overall accept rate was 26.1% for submitted manuscripts (research articles 38.8%, review articles 22.2%, and case reports 18.7%) in 2020.

The *JKMS* invited 702 experts for peer review of the manuscripts in 2020, and some of them received multiple invitations. The asterisk (*) marked reviewers were noticed of their contribution of 3 or more reviews. I and all of the editorial staffs of *JKMS* sincerely appreciate their contribution of all reviewers as introduced below. Among the reviewers, Dr. Olena Zimba (Danylo Halytsky Lviv National Medical University, Ukraine), Dr. Moo-Song Lee (Ulsan University, Korea), and Dr. Joonghee Kim (Seoul National University, Korea) were awarded as the best reviewer for *JKMS* in 2020.

Because peer review is critical for the journal and also for manuscripts, *JKMS* will invite more active experts over the world who can review submitted manuscripts in 2021. I expect voluntary contribution of the review as an honor in science. Thanks to the contribution, *JKMS* is progressing soundly and steadily as a global scholarly journal of medicine in general.

Name of reviewers for *JKMS* in 2020.

JKMS Reviewers, 2020

(An asterisk on the name identifies contributors by reviewing 3 or more manuscripts.)
