Aneurysm after Surgical Ligation of Patent Ductus Arteriosus: A Case Report¹

Sung Gyu Kim, M.D., Sang Kyu Yang, M.D., Jung Ik Chi, M.D., Chang Jun Lee, M.D.

¹Department of Diagnostic Radiology, National Medical Center

Patent ductus arteriosus (PDA) is one of the most common congenital heart diseases. A rare complication occurring after its surgical treatment is the development of an aneurysm, and we report the radiologic findings in a case in which this occurred after surgical ligation.
