

Prevention of Septal Perforation Using a Combination of Crushed Cartilage and Thin Silastic Sheet During Septoplasty

Young Gun Kim, MD, Sang Jun Kim, MD, and Woo Yong Bae, MD, PhD

Department of Otolaryngology-Head and Neck Surgery, Dong-A University, College of Medicine, Busan, Republic of Korea

J Rhinol 2021;28(3):158-163 | <https://doi.org/10.18787/jr.2021.00378>

We would like to correct the IRB number and Funding Statement as written below.

This study was conducted after being reviewed and approved by the Institutional Review Board (IRB) of the Dong-a University Hospital (approval number: DAUHIRB 21-101). The informed consents were waived because the study was conducted retrospectively based on medical records.

Funding Statement

This work was supported by the Dong-A University research fund.
