

## Erratum: Figure Correction

Kowoon Joo, Won Park, Mie-Jin Lim, Seong-Ryul Kwon and Jiyeol Yoon

### To the Editor:

#### We found an error in our published article:

Joo K, Park W, Lim MJ, Kwon SR, Yoon J. Serum Procalcitonin for Differentiating Bacterial Infection from Disease Flares in Patients with Autoimmune Diseases. *J Korean Med Sci* 2011; 26: 1147-1151. The explanation for the dotted ROC curve in the Fig. 3 should be "CRP + PCT". We have attached a corrected version of the Fig. 3.

**Fig. 3.** Receiver operating characteristics (ROC) curve for CRP and PCT levels in differentiating bacterial infections from disease flares. The area under the curve (AUC) was 0.70 (95% CI, 0.58-0.82) for CRP and 0.84 (95% CI, 0.75-0.93) for PCT. Predicted AUC for CRP and PCT combined was 0.83.
