In the forth and seventh row of Table 2, should be draw dividing lines and bold letter. We have attached a corrected version of Table 2.

Before correction:

**Table 2.** Incidence of thromboembolic events.

Event	N	Asymptomatic	Symptomatic
PE	19	11	8
DVT	18	1	17
PE and DVT	19	7	12
Classic VTE (PE or DVT)	56	19	37
SVT (with PE or DVT)	9	2	7
Isolated SVT	38	38	0
VTE (PE or DVT or SVT)	94	57	37

Abbreviations: DVT, deep vein thrombosis; PE, pulmonary embolism; SVT, splanchnic vein thrombosis; VTE, venous thromboembolism.

After correction:

**Table 2.** Incidence of thromboembolic events.

Event	N	Asymptomatic	Symptomatic
PE	19	11	8
DVT	18	1	17
PE and DVT	19	7	12
<b>Classic VTE (PE or DVT)</b>	<b>56</b>	<b>19</b>	<b>37</b>
SVT (with PE or DVT)	9	2	7
Isolated SVT	38	38	0
<b>VTE (PE or DVT or SVT)</b>	<b>94</b>	<b>57</b>	<b>37</b>

Abbreviations: DVT, deep vein thrombosis; PE, pulmonary embolism; SVT, splanchnic vein thrombosis; VTE, venous thromboembolism.

In Fig 1, a red line of the right graph indicate 'VTE (PE, DVT, SVT)' not 'VTE (PE, DVT)'.  
VTE (PE, DVT) → VTE (PE, DVT, SVT)
