Erratum

ANNALS OF LABORATORY MEDICINE

This erratum is being published to revise the website address of the Korean Reference Genome Database (KRGDB) and correct two typographical errors in the article entitled "Challenges and Considerations in Sequence Variant Interpretation for Mendelian Disorders" by Young-Eun Kim, Chang-Seok Ki, Mi-Ae Jang (Ann Lab Med 2019;39:421-429, doi: 10.3343/alm.2019.39.5.421).

Before correction:

1. Page 422 (Table 1) and page 424: http://152.99.75.168/KRGDB/
2. Page 425: The ACMG-AMP guidelines suggest seven rules for the consequence of a variant.
3. Page 426: Moreover, the absence of the variant in affected individuals is also considered as co-segregation information.

After correction:

1. Page 422 (Table 1) and page 424: http://coda.nih.go.kr/coda/KRGDB/index.jsp
2. Page 425: The ACMG-AMP guidelines suggest nine rules for the consequence of a variant.
3. Page 426: Moreover, the absence of the variant in unaffected individuals is also considered as co-segregation information.
