

S2 Table. Number of positive sentinel lymph nodes and surgical management of axilla according to the nomogram score in prospective cohort

Variable	Above cut off and intraoperative frozen group (n=60)	Below cut off, frozen sparing group (n=452)
No. of positive sentinel nodes		
0	30 (50)	379 (83.8)
1	10 (16.7)	55 (12.2)
2	6 (10)	10 (2.2)
≥ 3	14 (23.3)	8 (1.7)
ALND		
Yes	27 (45)	8 ^{a)}
No	33 (55)	

Values are presented as number (%). ^{a)}Reoperation for completion axillary lymph node dissection (ALND).
