

S1 Table. Association between the TS, ERCC1, and PD-L1 expression statuses of patients

	ERCC1			PD-L1		
	ERCC1 low	ERCC1 high	p-value	PD-L1 neg	PD-L1 pos	p-value
TS low	97 (83.6)	20 (87.0)	> 0.999	83 (85.6)	34 (81.0)	0.494
TS high	19 (16.4)	3 (13.0)		14 (14.4)	8 (19.0)	
ERCC1 low	NA	NA		80 (82.5)	36 (85.7)	0.637
ERCC1 high	NA	NA		17 (17.5)	6 (14.3)	

Values are presented as number (%). TS, thymidylate synthase; ERCC1, excision repair cross-complementation group 1; PD-L1, programmed cell death ligand 1; NA, not available.
