

S1 Fig. Effects of Jab1 silencing on Jab1 and p27 mRNA expression levels in biliary tract cancer cells. The mRNA expression levels were quantified by real-time quantitative polymerase chain reaction. Primers for Jab1 were as follows: forward 5'-TCTGCTGAAGATGGTGATGC-3' and reverse 5'-GCCAACCTGTTTTGCATTTT-3'. Primers for p27 were as follows: forward 5'-AGATGTCAAA-CGTGCGAGTG-3' and reverse 5'-TCTCTGCAGTGCTTCTCAA-3'.
