

**S1 Table.** Local, loco-regional, and distant failures among SCL-involved patients receiving SCL RT according to the response to NST

	Local	p-value	Loco- regional	p-value	Distant	p-value
CR to NST <sup>a)</sup> (n=115)	14 (12.2)	0.265	21 (18.3)	0.187	45 (39.1)	0.028
Non-CR to NST <sup>a)</sup> (n=72)	13 (18.1)		19 (26.4)		40 (55.6)	

Values are presented as number (%). SCL, supraclavicular lymph node; RT, radiotherapy; NST, neoadjuvant systemic therapy; CR, complete remission. <sup>a)</sup>14 patients, whose response to NST was unavailable, were excluded.
