

S1 Table. Postoperative discharge/readmission rates and cisplatin eligibility after surgery

	No AC (n=37)	AC (n=16)	p-value
Postoperative 30-day discharge	34 (91.9)	15 (93.8)	> 0.99
Postoperative 60-day discharge	37 (100)	16 (100)	-
Readmission in 30-day post-discharge	7 (18.9)	3 (18.8)	> 0.99
Readmission in 60-day post-discharge	13 (35.1)	4 (25.0)	0.538
Cisplatin eligibility after surgery ^{a)}	27 (73.0)	12 (75.0)	> 0.99

Values are presented as number (%). AC, adjuvant chemotherapy. ^{a)}Cisplatin eligibility was defined as the estimated glomerular filtration at the time of the discharge > 60 ml/min.
