

S2 Table. Annual ratios of BRCA tests in young breast cancer patients according to the region or health care delivery system

	Year										
	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020
Location											
Tertiary hospital	0.096	0.148	0.251	0.347	0.488	0.489	0.594	0.743	0.955	0.973	0.977
General hospital	0.062	0.049	0.151	0.258	0.279	0.486	0.681	0.879	0.714	0.721	0.893
Clinics	0.000	0.000	0.065	0.149	0.150	0.250	0.477	0.400	0.528	0.826	0.815
Health care delivery system											
Seoul	0.108	0.131	0.268	0.378	0.520	0.536	0.694	0.837	1.021	1.002	1.061
Metropolitan cities	0.013	0.046	0.071	0.220	0.354	0.325	0.540	0.573	0.768	0.906	0.973
Others	0.086	0.134	0.235	0.271	0.272	0.472	0.482	0.724	0.702	0.727	0.692

BRCA, breast cancer gene. BRCA testing ratio: ratio of the number of patients tested to the number of patients according to the region or health care delivery system in that unit in a given year.
