

S2 Table. Detailed information of intrathoracic progression patterns according to the treatment group

	Chemotherapy alone (n=183)	Chemotherapy with TRT (n=39)	Chemotherap y with ICI (n=72)
Intrathoracic progression	154 (84.2)	21 (53.8)	49 (68.1)
Initial intrathoracic lesion	91 (49.7)	3 (7.7)	29 (40.3)
Initial and new intrathoracic lesion	58 (31.7)	11 (28.2)	15 (20.8)
New intrathoracic lesion	5 (2.7)	7 (17.9)	5 (6.9)

Values are presented as number (%). ICI, immune checkpoint inhibitor; TRT, thoracic radiotherapy.
