

Supplementary Table 2. The relationships between enhancing capsule on CT or HBA-MRI and the degree of fibrous capsule on pathology

Modality	Fibrous capsule		
	Absent	Partial	Complete
CT			
Enhancing capsule (-)	26	49	20
Enhancing capsule (+)	64	59	19
HBA-MRI			
Enhancing capsule (+)	24	57	24
Enhancing capsule (-)	66	51	15

CT, computed tomography; HBA-MRI, hepatobiliary contrast agent-enhanced magnetic resonance imaging.
