	DP	95.6±14.2	99.8±16.7 ^c		97.5±14.4 ^c		95.7±13.8	

Values are presented as mean ± standard deviation.

PD, pancreateoduodenectomy; DP, distal pancreatectomy; HbA1c, glycosylated hemoglobin; AUC, area under curve; HOMA-IR, homeostasis model assessment of insulin resistance; HOMA-β, homeostasis model assessment of β-cell function; ISI, insulin sensitivity index; IGI, insulinogenic index; AST, aspartate aminotransferase; ALT, alanine aminotransferase; eGFR, estimated glomerular filtration rate.

^aDifferences within groups were evaluated using paired Student's *t*-test or Wilcoxon's signed-rank test according to the distribution of data, ^bDifferences of each time point to baseline values between two groups were evaluated using Student's *t*-test or Wilcoxon's rank-sum test as above, ^c*P*<0.05 compared with baseline values.
