

Supplementary Fig. 2. Double immunohistochemistry of neuronal marker microtubule associated protein 2 (MAP2) and green fluorescence protein (GFP) in hypothalamic arcuate nucleus (ARC), paraventricular nucleus (PVH), and dorsomedial nucleus (DMH) of high-fat diet fed lysozyme M (LysM)-GFP mice. Scale bars, 50 μ m. DAPI, 4',6-diamidino-2-phenylindole.
