Supplemental Table S3. Continued

Values are expressed as mean \pm standard deviation or number (%).

MMS, mobile message system; HbA1c, glycated hemoglobin; HDL-C, high-density lipoprotein cholesterol; LDL-C, low-density lipoprotein cholesterol; SMBG, self-monitoring of blood glucose.

^aP values were calculated using a paired *t* test between the values at the baseline and after treatment; ^bP values were calculated using Student's *t* test for delta changes between the two groups.
