

**Supplemental Fig. S2.** Prescription patterns of renal dose-adjusted (RDA) and non-renal dose-adjusted (NRDA) dipeptidyl peptidase-4 inhibitors (DPP4is) from 2012 to 2018. Prescription patterns of RDA and NRDA DPP4is from 2012 to 2018 in (A, B, C, D) patients with any estimated glomerular filtration rate (eGFR), (E, F, G, H) patients who were prescribed with DPP4is in outpatient clinics, and (I, J, K, L) patients who were prescribed with DPP4is during hospitalization.
