

Supplementary Table 5. Analysis of adverse reactions

Variable	Data (n = 110)
Subjects with adverse reactions	0
Results	
Complete healing (no aftereffects)	0
Healing (with aftereffects)	0
Ongoing	0
Permanent damage	0
Death	0
Unknown	0
Severity level	
Mild symptoms	0
Moderate	0
Serious	0
Measures taken in connection with medical devices for clinical trials	
None	0
Suspend and re-enforce	0
Suspended implementation	0
Causal relationship with medical devices for clinical trials	
Clear connection	0
Very relevant	0
Suspected connection	0
Low relevance	0
No relevance	0
Evaluation not possible	0
