Respective reasons (the number of literatures)

1. Absence of SAH model; alternative data model used. (5)
2. Inability to segregate SAH data. (1)
3. Lack of a control group. (18)
4. Presence of duplicate entries. (4)
5. Review articles. (7)
6. Therapeutic hypothermia was not applied. (12)
7. Protocol only. (5)
8. Conducted as an animal study. (3)
9. Availability of abstracts only. (1)
