

Supplementary Fig. 4. Kaplan-Meier survival curves of patients in groups N0 (n = 56), A + B (n = 38), and C (n = 39). (A) Recurrence-free survival (RFS) for patients in groups N0, A + B, and C ($P < 0.001$). (B) Overall survival (OS) for patients in groups N0, A + B, and C ($P = 0.014$).
